

## **PROTECH TASK ORDER STREAMLINED ACQUISITION PLAN PROCEDURES**

In accordance with an approval received from the Department of Commerce (DOC) the format prescribed in CAM 1307.1 is not required for task orders issued under the ProTech suite of indefinite delivery, indefinite quantity (IDIQ) contracts for the Satellite, Fisheries, Oceans, and Weather domains with a total value (including options) greater than the simplified acquisition threshold but less than \$75 Million solicited before April 1, 2020.

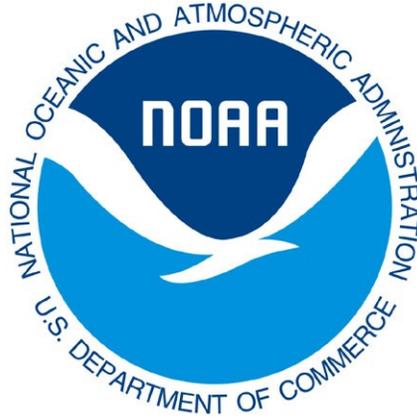

The ProTech Task Order Streamlined Acquisition Plan shall be used in lieu of the milestone and formal acquisition plan format for these task orders. A template for the ProTech Task Order Streamlined Acquisition Plan is included in this procedure.

All current policy and procedures are still applicable to the ProTech Task Order Streamlined Acquisition Plan. Use of the ProTech Task Order Streamlined Acquisition Plan does not change the approval requirements for an acquisition with a total value (including options) greater than or equal to \$10 million.

The ProTech Task Order Streamlined Acquisition Plan submission for SBPO approval should, at a minimum, include the documents required by Commerce Acquisition Manual (CAM) 1307.1 Section 6.2.2 and Acquisition Instruction 16-01.

Any questions about this procedure should be directed to Jay Standring, Chief, ProTech Branch, Strategic Sourcing Acquisition Division, Acquisition and Grants Office at [Jay.Standring@noaa.gov](mailto:Jay.Standring@noaa.gov) or (301) 628-1368.
